

Acknowledgements

We would like to thank the following people (team) for their effort in providing support to Gadsden County in developing this Utility Report:

Thanks to all Commissioners for having the vision to ensure that citizens have water and wastewater service upon request, at a fair price and that growth needs are reasonably met.

Thanks to Mr. Marlon Brown, County Manager, who understands the need to manage growth and plan for it. Mr. Brown is an excellent facilitator and has a good understanding of the Community's needs. Mr. Brown was instrumental in the development of this Utility Report.

Thanks to Ms. Farnita Saunders for providing copious amounts of data, technical support and for providing access to her knowledgeable staff. Ms. Saunders attended many meetings on behalf of the County in an effort to expedite the process. Gadsden County is fortunate to have a professional like Ms. Saunders to oversee this Water/Wastewater Program.

Thanks to Mr. Bill McCord and his staff who truly know the value of developing a sound plan for utility services within Gadsden County. Mr. McCord has been instrumental in the development of the necessary growth projections throughout the County. Mr. McCord provided invaluable insight as to the direction the Florida Department of Community Affairs (DCA) expects Gadsden County to follow. Mr. McCord obviously enjoys his work and takes pride in his service to the community.

The Gadsden County Staff should be commended for their ongoing proactive effort to provide water and wastewater service to meet ongoing needs within reason, in an effort to protect the environment and to meet the demands of future growth of the community. I hope they keep the vision!!

Thanks to the Florida Rural Water Association for their technical support on this report. Special Thanks to Mr. Gary Williams and Mr. Sterling Carrol for their ongoing efforts to support Gadsden County and the utility purveyors within the County, as they work together to develop a utility plan which will benefit all.

Thanks to the governing boards, management and staffs of the Cities and Towns of Gadsden County who assisted in making this report a comprehensive analysis of the County's infrastructure needs.

Thanks to the Florida Department of Environmental Protection, Mr. Cliff McKeown and Mr. Gary Hardie, for their support of Gadsden County and this Report.

Thanks to Angela Chelette at the Northwest Florida Water Management District who provided valuable insight regarding the water quality and water quantity within the County. She lives in the area and knows the communities geological makeup well. She is passionate about her work and her community's water needs. She has made herself available and provided much needed data.

We appreciate the valuable contributions each of these people and their staffs have provided.

Marc E. Neihaus, PE
